Don't miss two-time Tony Award® winners Nathan Lane and Bebe Neuwirth in this magnificently macabre new show created by Jersey Boys authors Marshall Brickman & Rick Elice, Drama Desk-winning songwriter Andrew Lippa (The Wild Party), choreographer Sergio Trujillo (Jersey Boys) and Olivier Award-winning director/designers Phelim McDermott & Julian Crouch (Shockheaded Peter).

It's an Addams Family portrait you've never seen before. Gomez, all mad impetuosity, Morticia, equal parts fire and ice, Fester, restless and romantic, Pugsley, for whom immediate gratification can't come soon enough and Wednesday, eighteen years old and finally feeling what it means to be a woman. A family that's quite shockingly, and endearingly, just like yours.
